**24th March
Chennai**

Thejo Engineering Limited, established in 1974, is a premium engineering solution provider to mining, mineral processing and bulk material handling industries through manufacturing products and offering onsite maintenance through technical services. Industries served are mining, mineral processing, steel making, aggregates and sand, power, chemical and fertiliser, cement, Ports and others.

Listed on the National Stock Exchange, their global headquarters is in Chennai with overseas subsidiaries in Australia, Saudi Arabia, Brazil & Chile. Their network covers India, Australasia, Middle East, South America, North America, Sub-Saharan and West Africa. Thejo group has five facilities in Chennai, two in Australia, one in Saudi Arabia and warehouses in Chile and Brazil. They have distributor networks in the UAE and Africa and are in the process of establishing one in Europe.

New expanded facility in Chennai

Thejo Engineering have set up a 3,10,000 sq. ft expanded manufacturing facility in Ponneri. Here, they are producing rubber screens, mill liners, diaphragms, shell lifter bars, pinch valves, splicing kits, rubber sheets etc.

Mr. V.A George, Chairman, Thejo Engineering, in his address, said, “The objective was to expand the existing facility as a state-of-the-art manufacturing facility with increased capacity of 50% to 3,600 MT per annum. The facility will focus primarily on enhancing the manufacturing capacity to meet the current market demand as well as manufacture new related products required by industry. This will help both international and Indian clients, though our primary focus would be to cater to the international market.”

“In the last financial year (FY22), 54% of our revenue was from the Indian market and the remaining from our international markets. Thejo Engineering is planning to expand our global network through appointing distributors in various key geographies. We are also in the process of expanding our current facilities in Saudi Arabia.
